

JORDAN

STELLENBOSCH

FACT SHEET

Gary and Kathy Jordan have been making world-class wines at this top wine estate since 1993. The estate has history dating back over 300 years. Gary's parents, Ted and Sheelagh, bought the now 164 hectare Stellenbosch property in 1982. Gary and Kathy embarked on an extensive replanting programme, specialising in classic varieties suited to the different soils and slopes.

Unique by nature's design, the Jordan slopes face North, South, East and West, with vineyards lying at differing altitudes from 150 to 410 meters above sea level. The vineyards benefit from their close proximity to both the Indian and Atlantic Oceans and enjoy a mild, Mediterranean climate with a maritime influence.

The Jordan philosophy combines the vineyards' natural assets with innovative management, creating a profound expression of terroir. The winery offers a variety of tastings, tours and unique experiences. Taste the Estate and Reserve wines at the tasting room or on the terrace overlooking the Stellenbosch Kloof Valley, while enjoying a platter of local cheeses and charcuterie. Or, see where the magic happens and take a cellar tour led by one of our passionate wine ambassadors.

The 360° tasting and tour allows guests an unparalleled view of the vineyards in an open safari-style game viewing Land Rover, with stops to experience the spectacular views of False and Table Bays, as well as the flora and fauna of the Cape Winelands. For something more romantic, opt for a private evening wine drive, catching the last of the sun as it sets over the hill.
