

THE WINES OF
JORDAN
STELLENBOSCH

Chameleon Cabernet Sauvignon - Merlot 2014

BACKGROUND

Tecomaria capensis commonly known as the Cape Honeysuckle, attracts bees, bugs and butterflies which is the perfect habitat for the Cape Dwarf Chameleon. Its bright orange flowers, often bloom all year round, in certain parts of South Africa. We have them all over the estate especially in the gardens of the Jordan Luxury Suites.

LOCATION & CLIMATE

The distinct ravine which embodies Stellenbosch Kloof harnesses all the qualities of a well-orientated compass. Varying elevations and aspects allows us to grow a selection of classic varieties to specific sites that optimise this expression through their location. The cooler south- and east-facing aspects, unique in Stellenbosch, hosts the more sensitive and aromatic white-skinned grape varieties.

Stellenbosch Kloof enjoys a cooler Mediterranean climate with maritime influences from False Bay, 14km to the south, and a refreshing breeze channelled from the West Coast's Benguela current 24km to the north-west. These two breezes culminate at the top end of the ravine and bring in early morning mists, especially from False Bay. Consequently, temperatures in our meso-climate can be measured at least 3° Celsius cooler than inland Stellenbosch during ripening periods. This adds a unique characteristic to Jordan wines.

APPELLATION

Wine of Origin Stellenbosch.

SOIL

Decomposed granite and loam.

ASPECT

North and east-facing vineyards.

AGE OF VINES

10 - 24 years

BLEND

54% Cabernet Sauvignon, 40% Merlot and 6% Shiraz

ANALYSIS

Alc: 13.5%

Total Acid: 5.7g/l

pH: 3.6357

Residual Sugar: 2.8g/l

TASTING NOTES

Often coined the "Baby Cobblers Hill" for its reminiscence to the estate's flagship red blend. Plush textured merlot fills the framework provided by the cabernet, leading to approachable flavours of sun-ripened plum & dark-skinned spring berries with a top-note of herbal dried mint.

HARVESTING

The cabernet sauvignon was harvested at 23.4°B between 12th of March and 21st of March 2014. The merlot was harvested at 24.3°B in the second of March 2014.

WINEMAKING & MATURATION

Fermented in overhead retort-shaped, stainless steel fermentors. Pump-overs were done three times daily during fermentation. The use of gravity and gentle pressing ensure full-flavoured wines with soft, balanced tannins. The cabernet sauvignon and merlot underwent malo-lactic fermentation in the barrel. The various portions of the blend spent 20 months in 225 litre French oak barrels (mostly Nevers and Alliers).

FOOD SUGGESTION

Perfect with Italian food, pizza, pasta or enjoy on its own.
